1. NATURE OF OPERATIONS

Abasca Resources Inc. (formerly AMV Capital Corporation) ("Abasca" or the "Company") was formed by way of an amalgamation on January 31, 2019 under the *Business Corporation Act* (British Columbia). On December 29, 2022, Abasca acquired a 100% right, title and interest in the mineral claims that comprise the Key Lake South Uranium Project ("KLS" or the "KLS Project") located in the southeastern Athabasca Basin Region in northern Saskatchewan from 101159623 Saskatchewan Ltd. for 25,639,288 common shares of the Company. The transaction constituted a "reverse takeover" ("RTO") pursuant to the policies of the TSX Venture Exchange ("TSXV") and was completed along with a name change to Abasca Resources Inc.

The Company resumed trading on the TSXV under its new ticker symbol "ABA" on January 11, 2023. The address of the Company's corporate office and its principal place of business is suite 208, 4th Avenue North, Saskatoon, Saskatchewan, Canada.

These interim condensed financial statements were approved by the Audit Committee on September 26, 2023.

Although the Company has taken steps to verify title to its exploration and evaluation properties, in accordance with industry standards for the current stage of exploration of such property, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and noncompliance with regulatory and, environmental requirements. The Company's assets may also be subject to increases in taxes and royalties, renegotiation of contracts and political uncertainty.

As at July 31, 2023, the Company has a cumulative deficit of $7,513,550 (April 30, 2023 - $6,199,841), continuing losses and is not yet generating positive cash flows from operations. These factors indicate the existence of a material uncertainty that may cast significant doubt about the Company's ability to continue its operations as a going concern.

These condensed interim financial statements were prepared on a going-concern basis in accordance with International Financial Reporting Standards ("IFRS"). Funding for operations has been obtained primarily through private share offerings. Future operations are dependent upon the Company's ability to finance expenditure requirements and upon the achievement of profitable operations. Management believes it will be successful in raising the necessary funding to continue operations in the normal course of operations; however, there is no assurance that these funds will be available on terms acceptable to the Company or at all.

These condensed interim financial statements do not include adjustments to the amounts and classification of assets and liabilities that might be necessary should the Company be unable to continue operations. Such adjustments could be material.

2. SIGNIFICANT ACCOUNTING POLICIES

Statement of compliance

These interim condensed financial statements are prepared in accordance with IAS 34 Interim Financial Reporting ("IAS34") using accounting policies consistent with IFRS issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC"). They do not include all financial information required for full annual financial statements and should be read in conjunction with the Audited Financial Statements of the Company for the year ended April 30, 2023.

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Exploration and evaluation properties

The acquisition costs of exploration and evaluation properties are expensed on the statements of comprehensive loss in the year incurred, as permitted under IFRS 6, Exploration for and Evaluation of Mineral Resources.

The acquisition costs of exploration and evaluation properties include the cash consideration and the estimated fair market value of share-based payments issued for such property interests.

Exploration costs are expensed in the period incurred. Option payments which are solely at the Company's discretion are recorded as acquisition costs as they are made. Administrative expenditures are expensed in the period incurred.

Equipment

Equipment is carried at cost, less accumulated amortization and accumulated impairment losses.

The cost of an item of equipment consists of the purchase price, any costs directly attributable to bringing the asset to the location and condition necessary for its intended use and an initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located. Repairs and maintenance costs are charged to profit or loss during the period in which they are incurred.

An asset's residual value, useful life and amortization method are reviewed, and adjusted if appropriate, on an annual basis.

Equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on disposal of the asset, determined as the difference between the net disposal proceeds and the carrying amount of the asset, is recognized in profit or loss.

Where equipment consists of major components with different useful lives, the components are accounted for as separate items. Expenditures incurred to replace a component of an item of equipment that is accounted for separately, including major inspection and overhaul expenditures, are capitalized.

Amortization is recognized based on the cost of an item of equipment, less its estimated residual value, over its estimated useful life at the following rates:

Detail	Rate	Method
Exploration equipment	3 years	Straight-line

3. MANAGEMENT OF CAPITAL

The Company manages its capital with the following objectives:

- to ensure sufficient financial flexibility to achieve the ongoing business objectives including funding of future growth opportunities, and pursuit of accretive acquisitions; and
- to maximize shareholder return through enhancing the share value.

The Company monitors its capital structure and makes adjustments according to market conditions in an effort to meet its objectives given the current outlook of the business and industry in general. The Company may manage its capital structure by issuing new shares, repurchasing outstanding shares, adjusting capital spending, or disposing of assets. The capital structure is reviewed by management and the Board of Directors on an ongoing basis.

3. MANAGEMENT OF CAPITAL (Continued)

The Company considers its capital to consist of equity, comprising share capital, contributed surplus, reserves and deficit which at July 31, 2023 totaled $1,512,324 (April 30, 2023 - $1,472,314). The Company manages capital through its financial and operational forecasting processes. The Company reviews its working capital and forecasts its future cash flows based on operating expenditures, and other investing and financing activities. The forecast is regularly updated based on its exploration and development activities. Selected information is regularly provided to the Board of Directors of the Company. The Company's capital management objectives, policies and processes have remained unchanged during the period ended July 31, 2023. The Company is not subject to any capital requirements imposed by a regulator or lending institution.

4. FINANCIAL INSTRUMENTS AND FINANCIAL RISK

International Financial Reporting Standards 7, *Financial Instruments: Disclosures*, establishes a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair Value of Financial Instruments

The Company's financial assets include cash of $2,594,378 and is classified as Level 1. The carrying value of these instruments approximates their fair values due to the relatively short periods of maturity of these instruments.

The fair value of the Company's financial instruments approximates their carrying value as at July 31, 2023 because of the demand nature or short-term maturity of these instruments.

Financial risk management objectives and policies

The Company's financial instruments include cash, amounts receivable, and accounts payable. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. Management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

(i) *Currency risk*

The Company's expenses are denominated in Canadian dollars. The Company's corporate office is based in Canada and current exposure to exchange rate fluctuations is minimal.

The Company does not have any significant foreign currency denominated monetary liabilities. The principal business of the Company is the identification and evaluation of assets or a business and once identified or evaluated, to negotiate an acquisition or participation in a business subject to receipt of shareholder approval and acceptance by regulatory authorities.

(ii) *Interest rate risk*

The Company is exposed to interest rate risk on the variable rate of interest earned on bank deposits. The fair value interest rate risk on bank deposits is not significant as the deposits are short-term.

(Expressed in Canadian Dollars) UNAUDITED

4. FINANCIAL INSTRUMENTS AND FINANCIAL RISK (Continued)

The Company has not entered into any derivative instruments to manage interest rate fluctuations.

(iii) *Credit risk*

Credit risk is the risk of loss associated with the counterparty's inability to fulfill its payment obligations. Financial instruments that potentially subject the Company to concentrations of credit risks consist principally of cash. To minimize the credit risk the Company places these instruments with a high quality financial institution.

(iv) *Liquidity risk*

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at July 31, 2023, the Company had a cash balance of $2,594,378 (April 30, 2023 - $1,530,460) to settle accounts payable and accrued liabilities of $820,370 (April 30, 2023 - $168,790). All of the Company's financial liabilities generally have contractual maturities of less than 30 days and are subject to normal trade terms.

The fair value of the warrants was estimated at $200,000 using the Black-Scholes option model pricing with the following assumptions: expected dividend yield of 0%, expected volatility of 126%, risk-free interest rate of 4.68%, expected life of 2 years and share price of $0.16. Issue costs of $2,654 were allocated to the warrants.

Two directors subscribed for an aggregate 960,000 units and a corporation controlled by a director of the Company subscribed for 2,860,000 units for aggregate gross proceeds of $955,000.

8. STOCK OPTIONS

On February 3, 2023, the Company adopted a new Stock Option Plan (the “Plan”) for directors, officers and employees, consultants of the Company which replaced the previous fixed plan (maximum of 2,400,000 common shares put in place in June 2019). The Plan is subject to shareholders’ approval at the next Annual General Meeting. The maximum number of common shares that is issuable under the Plan was fixed at 10% of the number of common shares issued and outstanding. Options expire after a maximum period of ten years following the date of grant. Vesting provisions are determined at the time of each grant.

11. COMMITMENTS AND CONTINGENCIES

Flow-through obligation
As at July 31, 2023, the Company has to incur $1,711,067 in qualifying exploration expenditures by December 31, 2024 to meet its flow-through commitments. At this time, management anticipates meeting that obligation and as a result, no additional provisions are required. The following table is a continuity of the flow-through share funding and expenditures along with the corresponding impact on the flow-through share premium liability.

(Expressed in Canadian Dollars) UNAUDITED

11. COMMITMENTS AND CONTINGENCIES (Continued)

	Flow-through funding and expenditure requirements $	**Flow-through premium liability $**
Balance, April 30, 2023	1,184,055	118,491
Flow-through funds raised and premium recorded as a liability	2,250,000	870,000
Flow-through expenditures incurred and reduction of liability	(1,722,988)	(452,631)
Balance, July 31, 2023	1,711,067	535,860

The flow-through agreements require the Company to renounce certain tax deductions for Canadian exploration expenditures incurred on the Company's mineral properties to flow-through participants. The Company indemnified the subscribers for any related tax amounts that become payable by the subscribers as a result of the Company not meeting its expenditure commitments.

Management contracts
The Company entered into agreements for the services of its key executives. Under the agreements, additional payments totaling $210,000 are be made upon the occurrence of a change of control. As a triggering event has not taken place, the contingent payments have not been reflected in the financial statements. The commitment upon termination of the agreement is $15,000. The minimum commitment due within one year under the terms of the agreements is $210,000.

Environmental
The Company's mining and exploration activities are subject to various laws and regulations governing the protection of the environment. These laws and regulations are continually changing and generally becoming more restrictive. The Company believes its operations are materially in compliance with all applicable laws and regulations. The Company has made, and expects to make in the future, expenditures to comply with such laws and regulations.
